

Vacationers Can Find Escorted Tours and Get Discounted Prices on New Website

Vacationers considering an escorted tour now have a new website which simplifies the search for the perfect tour package. In addition, they can realize substantial savings by taking advantage of discounts offered on all escorted tours.

Orlando, Florida, June 8, 2009 (FPRC) -- A new website, Discount-Tours-Plus.com, has been launched by Parker Travel. The site allows vacationers to search through hundreds of escorted tour programs, offered by leading tour operators, to international destinations around the world. Discounts of 5% to 10% are available on all tours.

Initially included on the Discount Tours Plus site are escorted tour offerings from Globus, CIE Tours, Trafalgar Tours, Collette Vacations, Insight and Tauck World Discovery. The "Find A Tour" search engine allows visitors to locate tours by various features including the destination, length of stay, date of departure, and price range. Would-be tourists no longer need to go to various tour operators' websites to seek information on available packages.

The site also provides information on Parker's discounted tour prices. All tours listed on the website, as well as packages from over 80 other tour operators, are offered at a discount. "Those interested in an escorted tour need not pay the operator's stated land cost," says Don Pickard, Sales Manager of Parker Travel. While some tour operators do not allow the discount to be advertised, most vacations are openly discounted from 5% to 10%.

Given the economic challenges of today, many travelers are considering escorted tours for their good value. Leading operators claim participants can save 15% to 40% over the cost of purchasing the services on their own. In addition, most operators are offering special savings right now. "With the discount promotions, plus an additional 5% to 10% from Parker Travel, the savings can be substantial," explains Pickard, adding, "this is, perhaps, one of the most affordable times to travel."
