

Grus Construction Personnel Now Offering Free Construction Job Postings Online

Contractors can now use Grus Construction Personnel services to post construction jobs online for free. Grus is a one stop recruiting service connecting commercial and industrial contractors with skilled craftsmen.

June 17, 2009 (FPRC) -- CLEARWATER, FL - Nationwide construction staffing company, Grus Construction Personnel, recently launched a new service that allows contractors to post construction jobs on the Grus Personnel website for free. By posting available jobs through Grus, contractors can easily and conveniently connect with experienced, qualified construction personnel.

Grus Construction Personnel has been providing recruitment services and construction personnel to clients for more than 20 years. With first-hand knowledge and experience in the field, Grus prides itself on being a unique service provider in the industrial staffing industry. At the start of each project, Grus carefully takes into consideration the budget, timeline and the level of skill required. By thoroughly examining every client's individual requirements, Grus has successfully developed a streamlined process to meet a wide range of staffing needs.

"Not only do we understand exactly what the client needs, but we also work hard to meet their requirements. We provide skilled tradesmen with quality training and expertise in the required field. Our aim is to simply find the right man for the right job at the right price," says Amy Clavier, Account Manager at Grus Construction Personnel.

The new construction job postings service offered by Grus is therefore an added bonus for contractors and tradesmen alike. Employers can post construction jobs for free and Grus encourages jobseekers to use its construction recruitment services to connect with potential employers.

"The new free construction job postings service allows Contractors to reduce some of their operating expenses by enabling them to be more successful at recruiting on their own. Grus knows that growing Contractors will see the value in utilizing Grus Recruiters from time to time to help with their recruiting needs. By Grus generously giving 'free job postings' to Contractors, the firm is demonstrating that having a relationship with them has real value. By working with Grus, Contractors can be confident they will receive quality workers for their projects," says Clavier.

In the current period of recession, employers are keen to attract dedicated and suitably qualified workers for their time-critical projects. However, this process often becomes difficult for individual contractors, and a construction staffing company like Grus Construction Personnel is uniquely equipped to provide construction personnel for projects as well as perform other recruitment services. As an active member of Associated Builders and Contractors (ABC), Grus is dedicated to providing quality services to contractors, jobseekers and the building and construction industry in general.

About Grus Construction Personnel:
