

Titanium Jewelry Features a Unique Selection of Men's Wedding Bands

Leading online jewelry retailer offers exceptional savings on modern men's wedding rings and jewelry

June 18, 2009 (FPRC) -- Titanium-Jewelry.com, a leading online retailer of men's wedding bands, tungsten rings, titanium rings and unique contemporary jewelry, is pleased to introduce its selection of unique and elegant wedding bands, engagement rings and promise rings for modern couples shopping for the jewelry purchase of their lifetimes.

"With nuptial season in high pitch, we can reliably count on June as our busiest time of year for sales of wedding bands and engagement rings," said Ron Yates, founder, Titanium-Jewelry.com. "Today's couples are looking for jewelry that not only stands for their commitment to each other, it should also make a statement about who they are. Our distinctive styles add a modern twist to the time-honored tradition of wedding bands, and engagement and promise rings."

Titanium-Jewelry.com features bestsellers such as the "JOLIE" diamond and titanium ladies engagement ring by Edward Mirell. The bypass tension set ring features a captivating design that truly showcases the diamond, and is available in high polish or satin finish. For him, the handsome "FORGE" tungsten and black diamond ring is an attention-grabbing alternative to traditional men's wedding bands. The 7-mm wide satin finish tungsten band features a high polish groove in the middle of the ring, which sets the stage for three opulent black diamonds encased in white gold bezel.

An alternative to traditional diamonds, the black diamond has recently been favored among celebrities such as Carmen Electra, whose engagement ring's stone is a black diamond set against white diamonds. Also known as carbonado, the black diamond is the oldest, toughest and rarest diamond found only in Brazil and Africa. The black diamond is so tough that it was used to drill the rocks for the Panama Canal. Black diamonds used in jewelry are treated with high heat to get their intense color.

Titanium-Jewelry.com brings cutting edge designs to market offering affordability and stylish value to couples in search for unique rings and contemporary jewelry. Enticing grooms and couples worldwide, the online retailer provides a multitude of styles and metals representing the best selection of palladium rings, titanium rings, tungsten rings, and men's wedding bands for the up and coming male and female demographic.
