

Swim With Dolphins Bahamas Tours Announces Sea Explorer Swim With Dolphins Excursion

Leading holiday dolphin tour operator, Swim With Dolphins Bahamas, announces a new Bahamas dolphin swim attraction for tourists. The Sea Explorer Bahamas dolphin tour is designed to provide closer interaction with the mammals.

June 22, 2009 (FPRC) -- FREEPORT, BAHAMAS – Premier Bahamas dolphin tour operator, Swim With Dolphins Bahamas, recently announced a two-hour Sea Explorer Bahamas dolphin tour. The tour caters to both adults and children alike. To increase awareness about the importance of dolphins in the ecological system, the Sea Explorer Bahamas dolphin tour begins with an educational presentation about typical dolphin behavior and their biology.

Each Bahamas dolphin tour includes a 30-minute interactive Bahamas dolphin swim. During the tour, adults and children are given the opportunity to hold onto the mammal's dorsal fin and ride its back through the water like professional trainers. While Swim With Dolphins Bahamas does not currently offer individual tours, the company's dolphin swim groups include only 10 or less people to ensure a personal and enjoyable interaction for every participant.

"Our Bahamas dolphin swim tours offer all participants a personalized experience. We only operate in small groups so tour participants do not feel cheated and can make the most of their time with these friendly mammals," says Chris Gardner of Swim with Dolphins Bahamas.

The Bahamas Dolphin sanctuary where the Sea Explorer dolphin tour takes place spans a wide area of nine acres. After the presentation, the Bahamas dolphin swim tour is very hands-on with professional trainers guiding participants along the way. These bottlenose dolphins are very friendly creatures and once a participant masters the dolphin signals, teaching them tricks is an enjoyable experience.

The Swim With Dolphins Bahamas Sea Explorer tour operates seven days a week, four times daily with two trips in the morning, and two more in the afternoon. The Bahamas dolphin swim tour lasts a total of 120 minutes including a 20-minute boat ride to the secluded dolphin sanctuary. The daily tours depart from Port Lucaya Marina. Children and adult tours are priced the same at \$189 per person.

In addition to Bahamas dolphin swim tours, as a leading tour operator, Swim With Dolphins Bahamas also offers a variety of additional tour packages. From relaxing island beach days at Blue Lagoon Island to thrilling sea lion encounters, the firm excels at providing memorable vacation experiences for travelers of all ages.

"At Swim With Dolphins Bahamas, we assure all tour participants that the dolphins in our sanctuary are absolutely safe and a whole lot of fun to interact with. This experience usually teaches participants a lot about dolphins. The Sea Explorer Bahamas dolphin tour is an exciting and enjoyable interactive experience that every traveler should enjoy," says Gardner.
