

SimulationExams.com - CompTIA Security+ Practice Tests

SimulationExams.com, a leading practice tests provider, released CompTIA Security+SY0 - 201 practice tests. Security+ certification is one of the most widely recognized certifications in the area of computer networks security. The practice tests are intended to help candidate pass the certification exam by simulating actual exam environment.

June 25, 2009 (FPRC) -- SimulationExams.com, a leading practice tests provider, released CompTIA Security+ SY0 201 practice tests. The Security+ certification is awarded by CompTIA. The exam is intended for candidates having experience in configuring and managing computer networks security. Security+ Certification is one of the most widely recognized certification in the field of computer and network security. Security+ exam is targeted for computer service technicians. The practice tests offered by SimulationExams include 250+ questions and provide a simulated test environment for candidates and facilitate taking final exam with confidence.

The exam objectives include General Security Concepts, identifying potential risks, infrastructure and connectivity, monitoring activity and intrusion Detection, securing the network environment, cryptography basics, cryptography standards and methods, securing the network environment, and security administration.

The advantages of a simulated exam are:

- Ability to gauge one's preparedness to take actual certification exam
- To prepare for the exam objectives thoroughly from a different perspective (from the study guides)
- To familiarize oneself with actual exam environment (such as timed test, scenario based questions, etc.)

Other CompTIA practice tests available from SimulationExams.com include A+ Essentials, A+ IT Technician, and Network+. Other practice tests available include Cisco Certified Network Associate (CCNA 640-802), CCNP BSCI (642-901), Cisco Certified Entry Network Technician (CCENT), and others.
