

Striking Software Announce Anniversary Flight Sim Competition

Striking Software, a company developing add-ons for Microsoft Flight Simulator X announce a screenshot competition to celebrate one year in business.

NY, USA -- July 09, 2009 -- Striking Software are celebrating one year in business by running a competition where applicants can win a product of their choice from CH Products range of flight simulator peripherals. CH products are developers of flight simulator peripherals for PC including flight yokes, joysticks, throttle devices and rudder pedals all compatible with the Microsoft range of Flight Simulators and others such as X-Plane and FlightGear.

Entrants need to simply join their forum here:

<http://www.fswaterconfigurator.com/forum/index.php?action=register>

There are some rules and regulations regarding the competition, they are as follows.

1. Entrants may include a title and brief description of their shot.
2. Entrants must not include their name or any identifying feature in the shot as voting is anonymous.
3. Entrants must use FSWC, and feature water prominently in their shot.
4. Entrants must state which theme they have used.
5. Edits are not allowed - only cropping and resizing.
6. Entrants need to resize the image to 800x600 (or something near) and limit it to 256KB.
7. Entrants need to email the image to sscomp@fswaterconfigurator.com.
8. Entrants may send in only one shot per account/user/email address.

About Fly Away Simulation

Fly Away Simulation is one of the web's largest flight simulation news and information portals. Fly Away Simulation has been serving the flight sim community for over 8 years, providing the latest free flight sim downloads and add-ons. The flight sim downloads section provides the latest free flight sim downloads for Microsoft Flight Simulator X and previous releases such as Microsoft Flight Simulator 2004. Each download has a description, preview image before download and compatibility information. Fly Away Simulation also offers a selection of free flight simulator releases for users who do not wish to pay for flight simulators - these include X-Plane, FlightGear and Orbiter. The FS forums have a huge user base and following, with over 120,000 registered members and counting. Flight Simulator news is updated daily, with an option to subscribe to the Flight Sim RSS feed. Fly Away also features aviation news from the aviation industry. More information at:
