

## **Kitchen Countertop Store ReplacementCounters.com Introduces Web Previews Of Countertops**

*Internet retailer ReplacementCounters has introduced an interactive shopping application that allows customers to view large images and view sample countertops in different applications.*

July 9, 2009 (FPRC) -- SOMERSET, NJ - Leading internet retailer ReplacementCounters has enhanced its customer's online shopping experience with its new web preview application service. The online kitchen countertop store now offers customers the chance to not only view large images of various countertop samples, but offers a chance to preview the application of the materials.

The shots of the various kitchen countertop materials showcase different kitchen and/or bath applications of the products and help provide potential customers with a better idea of the right product for them.

All countertops purchased at the ReplacementCounters online store are custom created and designed for the individual buyer, depending on their needs. From granite countertops to solid surfaces, the quality of all countertops sold by the company is guaranteed by the manufacturer's warranty.

In addition to the convenience of buying online, customers enjoy other advantages when shopping at ReplacementCounters.com including an extensive selection of surfaces to choose from. Because countertops are custom-made, customers can create unique areas in their homes with their personalized design and color choices.

"It's an e-world and we believe customers should be able to do everything online -- including shopping for home renovation materials. Our goal was to create the interactive experience of shopping in a store, but with the convenience of shopping online," says Peter Quense, General Manager of ReplacementCounters.com.

The company offers a wide variety of countertop surfaces for customers to choose from including Quartz, Solid Surface, Recycled Glass, Green Products and Granite countertops. Each custom-made kitchen countertop is made from materials from well-known brands such as Dupont Corian® and Zodiaq countertops, LG Hi Macs® and Viater®, Caesarstone®, IceStone® and more.

ReplacementCounters offers its customers the convenience of round-the-clock shopping with a 24/7 quoting system allowing them to submit quotes online. Once a mutually agreeable price has been established, the company actions the fabrication process followed by delivery to the customers home and installation by ReplacementCounters personnel. ReplacementCounters services are fully insured and all staff fabricators and installers are professionally trained and certified to provide the highest quality of service for ultimate customer satisfaction.

"It's convenient and it's more affordable than expensive renovations like flooring, appliances and cabinets. Investing in a replacement countertop is not only budget-friendly but can create a whole new look for your bathroom or kitchen with minimum hassle," concluded Quense.

About ReplacementCounters:

ReplacementCounters.com is a fully insured and certified kitchen countertop fabricator and installer providing affordable and convenient services to customers across the USA. The online store creates custom made countertops for individual customers that can be used in newly renovated kitchen and/or bath applications or in countertop only replacements. All countertops are delivered and professionally installed by trained company personnel.
