

## **DtiCorp.com is Introducing the Grundfos HVAC Control Products**

### *3,500 New Grundfos HVAC Control Products from DtiCorp.com*

July 10, 2009 (FPRC) -- Fort Lauderdale, FL – DtiCorp.com (<http://www.DtiCorp.com>) is introducing 3,500 brand new Grundfos HVAC Control Products. Grundfos Pumps Corporation (<http://www.grundfos.com>), part of the Grundfos Group, is a global pumps and pumping systems leader serving the residential, commercial building and process industry markets, as well as being a major supplier to the water supply and water treatment industries. Grundfos is known for advanced products, technology, and brands including Alldos, Hilge, PACO Pumps, Peerless Pumps, and Yeomans Chicago Corp. Producing over 10 million pumps each year, Grundfos strives to improve reliability and energy savings, and to exceed customer needs wherever water moves. Grundfos is focused on innovative, sustainable solutions while maintaining the highest ethical standards. Founded in 1945 in Bjerringbro, Denmark, The Grundfos Group is a worldwide enterprise that employs more than 18,000 people in 81 countries with North American headquarters in Olathe, Kansas.

#### HVAC Solutions from Grundfos

##### \* Residential:

> Zone Controls - The Grundfos Zone Controls are non-networked devices intended to be used for circulator and boiler control in hydronic heating systems. Compatible with conventional and programmable thermostats.

> Hot water recirculation - Grundfos HWR pumps offer a solution to the problem by attaching to the water heater through the hot water pipe. By constantly circulating hot water through the pipes from the heater to the furthest fixture, the water in the pipes is always hot, and no water is wasted during the wait. In an average new home, HWR systems typically cost less than \$1,000, including parts and installation.

> Grundfos submersible pumps - SmartFlo Submersibles (SQE), 4-inch Submersibles, 6-8-10-inch Submersibles, Jet Pumps, SQ Flex.

> Grundfos submersible motors - Grundfos has been manufacturing quality submersible motors for more than 30 years, and the highly efficient Grundfos MS submersible motors are rated among the very best on the market. The MS motors are based on state-of-the-art technology that comprises highly reliable shaft seals and heavy-duty thrust bearings. High efficiency and a long operating life ensure low long-term Cost of Ownership.

##### \* Commercial Building Services:

> Commercial Building Services - providing advanced pump technology, control systems and service in urban locations and environments such as: offices, schools and universities, sport facilities, hospitals, theme parks, airports, hotels, apartment blocks, shopping centers.

> Grundfos Magna - range of powerful pumps for heating systems in buildings on any scale. All the pumps feature the superior AUTOADAPT technology, which has ensured them an A-rating on the European energy labeling scale.

> Grundfos VersaFlo - Most VersaFlo UP(S) circulator pumps can replace other manufacturers' 3-piece dry runners without piping modifications and occupy less space.

> Grundfos BMP(E) pumps - The pump range features low energy consumption, corrosion resistant material and low pulsation. Furthermore the pumps require minimal service and at the same time the BMP is the most compact pump on the market, giving systems builders a free hand to design more compact systems.

> Commercial OEM solutions - Partnering with Grundfos means we can help you stay on top of the market's demands for cutting edge technology. For example, with the trend toward sharply rising energy prices, we predict energy efficiency considerations can only become more important to manufacturers of industrial equipment.

\* Industrial

> Industrial Solutions - Adding performance to the industry is beyond reliability. It is providing industries with stronger, more flexible and more intelligent pump and pump systems. Pumps for all areas such as dairy, brewery, beverage, ethanol, yeast, juice, pharmaceutical, water treatment, marine and other industries - solutions that will add performance to your industry.

About Us: DtiCorp.Com (<http://www.DtiCorp.com>) carries more than 35,000 HVAC products, including industrial, commercial and residential parts and equipment from Honeywell, Johnson Contols, Robertshaw, Jandy, Grundfos, Armstrong and more. Our online catalog is easy to navigate and search, and all products have a picture and a description. If a customer has any questions about a product, they can call 800-757-5999 and speak with one of our product experts. Our mission is to offer the best prices anywhere to our customers.
