

Diaper Cupcakes? Don't Eat These Unique Baby Shower Gifts!

Delicious looking but these unique baby gifts take on a 'sweet' twist in their presentation of practical baby necessities.

July 20, 2009 (FPRC) -- Baby gifts are for that special occasion that marks the birth of new baby. BabyBouquetsandBaskets.com has been well known for their 'Baby Bouquets that never wilt', made with onesies and clothing items to resemble rose blooms.

Today, BabyBouquetsandBaskets.com announces the arrival of a new line of diaper baby shower gifts that look like cupcakes, lollipops, and ice cream sundaes. These creative presentations of practical baby necessities make gift giving a whimsical experience. Diaper baby shower themes benefit from these 'sweet treats' without a single calorie added.

Diaper cupcakes are made with diapers and baby washcloths, rolled to look very edible and bakery boxed to complete the effect. Blanket and washcloth lollipops are also tantalizing additions to the 'dessert' menu. A conventional sippy cup, spoon and wash cloth become a triple layer 'sundae'.

Retailers are finding that the presentation of a gift is as important as the gift itself. Unusual ways of packaging the practical have been the priority of Baby Bouquets and Baskets. The store owners have said 'We are always open to new ideas to make a gift more special in its giving as well as in its reception so that our inventory is always unique.'

Diaper cupcakes are crafted by Baby Sweet Treats and sold exclusively by StorkandVeil.com stores online.
