

Premier Tour Operator, Swim With Dolphins Bahamas, Introduces Unique Scuba Diving With Dolphins Tour

Expert Bahamas dolphin swim tour organizers, Swim With Dolphins Bahamas, introduces a one-of-a-kind dolphin tour that allows tour participants to scuba dive alongside Bahamas dolphins.

July 21, 2009 (FPRC) -- FREEPORT, BAHAMAS – As the leading dolphin tour organizers, Swim With Dolphins Bahamas is now offering visitors a unique and memorable Bahamas scuba diving experience. Participants of The Dive With The Dolphins tour can scuba dive alongside fully trained Bahamas dolphins – a diving opportunity not easily available.

Tour participants travel aboard a customized diving boat that transports passengers to the coral reef. The interaction with the dolphins in this environment is particularly memorable, as the dolphins are in their natural habitat. However, to ensure maximum safety of all participants, all dolphins are fully trained by professional dolphin trainers and the dolphins follow the dive boat to the coral reef where the interaction takes place.

"Swimming with dolphins is an experience unique in itself, but we add an extra twist to it by allowing tourists to get up close and very personal with the dolphins through a scuba diving experience," says Chris Gardner of Swim With Dolphins Bahamas.

Once at the reef, passengers are free to dive into the waters to play with the dolphins and enjoy the beauty of the coral reefs of the Bahamas. All participants are trained to use particular hand gestures that dolphins respond to, before the scuba diving trip. In order to make swimming with dolphins Bahamas more enjoyable, it is important to know basic gestures such as those for spinning around, retrieving items and other clever tricks. Dolphins are very smart sea creatures, and this trip gives tourists a chance to interact with dolphins and witness this first hand.

"The Dive With The Dolphins Tour is definitely one of the best tours available for those visiting the Bahamas. Never before has scuba diving been so intriguing and so much fun. Tour participants not only get to enjoy a fantastic scuba diving experience amidst some of the world's most beautiful reefs but also get to interact with dolphins in their natural environment," concludes Gardner.

The Dive With The Dolphins Tour is only available on Wednesdays and Saturdays, departing at 9:00 AM and lasting approximately two hours. Ticket prices have been slashed from the original \$244 to \$219, with adults and children paying the same price. The boat departs from the Port Lucaya Marina. Observers are not allowed on board, and all passengers must participate in the diving expedition. Considering the unique nature of the dolphin tour and since it only operates twice a week, visitors are advised to book their Bahamas dolphin swim in advance to avoid disappointment.

About Swim With Dolphins Bahamas:
