

Dr. Robert L. Williamson III Once Again Selected As One of America's Top Dentists

The Consumer Research Counsel of America has named Raleigh NC dentist Dr. Robert L. Williamson one of America's Top Dentists.

July 22, 2009 (FPRC) -- RALEIGH, NC -- For yet another year, Raleigh Dentist Dr. Robert L. Williamson III has received an award for being one of the top dentists in the United States. The Consumer's Research Council of America, a health care advocacy organization based in Washington, D.C. has once again bestowed this award on Dr. Williamson and his practice, Raleigh Comprehensive and Cosmetic Dentistry.

Eligibility for the award is based on a point system developed by the Council that encompasses experience, training, continuing education, and professional association affiliation. The Consumer Research Counsel exists to provide education and assist customers in obtaining the finest professional services through thorough independent analysis.

"I am honored to be chosen as one of the best dental providers in the country once again. We strive hard to take care of our patients at the highest levels possible, and it is gratifying to know that there are patient advocacy organizations that recognize and value our level of dedication," says Dr. Williamson of Raleigh Comprehensive & Cosmetic Dentistry (<http://www.RaleighDentist.com/>).

Dr. Williamson is heralded as one of the leading Raleigh NC sedation dentists. Because of his fully accredited oral sedation dentistry status, the Practice is one of a very few in Raleigh, and one of the only in North Carolina certified to provide moderate oral conscious sedation.

In addition to sedation dentistry, Dr. Williamson and the Associates of Raleigh Comprehensive & Cosmetic Dentistry offer a wide range of comprehensive dental treatments as well as cosmetic dentistry including veneers, dental bonding and teeth whitening.

Additionally, Dr. Williamson and his Raleigh dental team work closely with patients to determine the most affordable payment options. In a relaxed and private setting, the staff discusses various payment options with patients for those with and without dental insurance coverage. With an in-depth knowledge of various insurance plans, the staff seeks ways to maximize insurance benefits that may otherwise be overlooked.

"My goal is to help every patient achieve a beautiful smile, regardless of challenges they may face with phobias or finances. I believe that it is our passionate commitment to every individual patient that has led to our designation as one of America's top dentists once again," says Williamson.
