

## **CertExams.com Cisco CCENT Network Simulator**

*SimulationExams.com, a leading certification tests provider released Cisco CCENT (CCENT stands for Cisco Certified Entry Network Technician) network simulator. The netsim is intended for candidates preparing for CCENT certification, and enables one to have hands-on practice with router/switch network in a simulated environment.*

July 26, 2009 (FPRC) -- CertExams.com, a leading certification online exams provider has recently released Cisco CCENT network simulator. CCENT Certification is awarded by Cisco Systems on successful completion of qualifying exam(s). CCENT is intended for candidates who have just started working on Cisco routers and switches. For entry level candidates who have difficulty in procuring the hardware for having hands-on practice, CertExams.com CCENT netsim provides a good alternative. The advantages of using CCENT network simulator include the following:

- Lab exercises for hands-on practice.
  - Router and switch simulator
  - Simulate Cisco® IOS routers (2501/2503) or switches (2950).
  - Support for 200+ router and switch commands
  - Labs for 1900 and 2950 switches included
  - Detailed Lab manual and help files
  - Network designer that provides drag and drop feature for inserting devices and connectors. GUI based device configurator.
- Support short form commands. You can type short form commands in IOS simulator for router/switch commands just like in actual router/switch.

The exam objectives covered by CCENT certification include the following:

1. Describe how a network works
2. Configure, verify and troubleshoot a switch with VLANs and interswitch communications
3. Implement an IP addressing scheme and IP Services to meet network requirements in a medium-size Enterprise branch office network.
4. Configure, verify, and troubleshoot basic router operation and routing on Cisco devices
5. Identify security threats to a network and describe general methods to mitigate those threats
6. Implement, verify, and troubleshoot simple NAT in branch office network.
7. Implement and verify serial links

Other simulators offered by CertExams.com include the following:

1. CCNA Simulator with Practice Tests
2. Juniper Junos Simulator
