

## **European Hotel Specialist Eurobookings.com Adds Web Features For A More Efficient Hotel Reservation Experience**

*Europe-based travel website Eurobookings.com announces the highly anticipated re-launch of its website with many new and exciting features.*

July 28, 2009 (FPRC) -- ANTIBES, FRANCE -- Europe-based travel website Eurobookings.com announces its long-awaited re-launch with many brand-new features. With a collection of 75,000 hotels in over 15,000 cities, Eurobookings.com offers one of the most impressive inventories of hotels in Europe on the Web.

Travelers searching for cheap hotels in Amsterdam or a luxury hotel in Paris will find them at Eurobookings.com at the lowest price as per EuroBookings 'lowest price guarantee.'

The state-of-the-art travel website requires no advanced payments for most of its hotel inventory, and services are free of charge. Eurobookings.com does not charge any reservation fees.

The affordability of Eurobookings.com is only one of the many things that set the website apart from the pack. With its re-launch, Eurobookings is primed to make it quicker and easier than ever before to book great hotels.

At Eurobookings.com, users can search for and browse hotels by any criteria including the ability to browse by landmark, district, or airport to ensure they find the accommodations in the exact location that they are looking for. Hotels may also be sorted according to popularity, star rating, or guest demographics. Helpful user reviews lend an unbiased perspective, and professional travel videos offer a virtual tour of hotels and neighborhoods.

With an average of 445 million travelers arriving in Europe on an annual basis, availability of hotel inventory needs to be up-to-date and up-to-the-minute and easily accessible. In this competitive market, Eurobookings.com remains ahead of the game with one of the fastest reservation systems available.

During a test comparing Eurobookings.com response times with 5 other leading hotel booking sites, Eurobookings was fastest in over 3 different continents.

"Speed is of the essence because people don't want to wait minutes before results become available, and they want results to be accurate. Nothing more frustrating than discovering a hotel is not available for the indicated rate when you are ready to book," says Marcel Stillekens, Managing Director of Eurobookings.

Moreover, the remodeled Eurobookings.com does not only cater to the world's majority number of European tourists. Eurobookings.com welcomes the ever-growing international market by offering its services in over twenty different languages. Users can find information on London hotels, hotels in Rome, hotels in Berlin, and any other European city in their language of choice. Eurobookings.com multilingual customer service staff provides real-time, personalized customer service to accommodate travelers from around the world.

About Eurobookings.com:

Eurobookings.com is one of Europe's premier hotel booking websites. The newly re-launched offers a wide range of services designed to make hotel booking faster, easier, and more affordable. Its growing inventory of 75,000 hotels in Europe and wealth of insider information make it easy and fast for travelers to find and book hotels anywhere in Europe. Eurobookings.com was founded in 2001 and its team of hotel and internet experts has expanded to 30 professionals working out of seven global offices catering thousands of travelers a day. Last year alone, Eurobookings.com served over one million customers from over 32 different nationalities.
