

SimulationExams.com Has Released Cisco CCNP BSCI Practice Tests

SimulationExams.com, a provider of IT certification practice tests has recently released CCNP BSCI (Exam code: 642-901) practice exams. Exam# 642-901 is one of the four constituent exams that needs to be passed for being awarded Cisco CCNP certification.

August 28, 2009 (FPRC) -- SimulationExams.com, a provider of IT certification practice tests has recently released CCNP BSCI (Exam code: 642-901) practice exams. Exam# 642-901 is one of the four constituent exams that needs to be passed for being awarded Cisco CCNP certification. CCNP cert, awarded by Cisco is one of the most sought after certifications in the field of WAN/LAN networking using Cisco devices. CCNP BSCI exam is intended for candidates who have experience in the following areas:

- * Routing Principles
- * Extending IP addresses
- * Configuring OSPF in a Single Area
- * Interconnecting Multiple OSPF Areas
- * Configuring IS-IS Protocol
- * Configuring EIGRP
- * Configuring Basic Border Gateway protocol
- * Implementing BGP in Scalable Networks
- * Optimizing Routing Update Operation

The exams that are required to be passed for CCNP are:

642-901 BSCI Building Scalable Cisco Internetworks (BSCI)
642-812 BCMSN Building Cisco Multilayer Switched Networks (BCMSN)
642-825 ISCW Implementing Secure Converged Wide Area Networks (ISCW) 642-845 ONT
Optimizing Converged Cisco Networks (ONT)

OR

642-892 Composite Building Scalable Cisco Internetworks (BSCI)
Building Cisco Multilayer Switched Networks (BCMSN)
642-825 ISCW Implementing Secure Converged Wide Area Networks (ISCW)
642-845 ONT Optimizing Converged Cisco Networks (ONT)

The practice tests offered by SimulationExams include 200+ highly relevant questions that provides a simulated test environment for a candidate before appearing for real exam. The advantages of a simulated exam are:

- * Ability to gauge one's preparedness to take actual certification exam using section-wise scoring
- * To prepare for final exam quickly and affectively
- *To familiarize oneself with actual exam environment (such as timed test, relevant practice questions, etc.)

The questions types include multiple choice single answer, multiple choice multiple answers, true/false, and exhibit based questions. Most of the questions carry detailed explanation for thorough understanding of the subject. Section wise scoring is provided for identifying weak areas. The tests conform to the objectives of the Network+ exam.

Other Cisco practice exams available include CCNA, CCENT, CCNA ICND2, CCNP BCRAN, and others.
