

HCGSupplies.com Helps Shoppers Get Svelte for the Holidays

Popular weight loss regimens and related accessories available for those seeking slimmer seasonal profiles

October 26, 2009 (FPRC) -- HCGSupplies.com, a pioneer of online HCG mixing supplies and instruction, announced today the availability of proven weight loss and weight maintenance resources, for the holiday season. Although HCGSupplies does not sell HCG, shoppers will find a extensive collection of mixing equipment, kits and information.

“With Thanksgiving and holiday indulgences right around the corner, savvy dieters can enlist the aid of weight-loss resources and books, such as Kevin Trudeau’s ‘The Weight Loss Cure “They” Don’t Want You to Know About’,” said Jim Sparks, marketing director, HCGSupplies.com. “The HCG mixing kits we offer were designed with readers of the Trudeau book in mind and both make great gifts for close family or friends who want to start a diet next year.”

The Kevin Trudeau Weight Loss Cure is a special weight loss cure that involves the use of the natural human pregnancy hormone HCG. This cure for obesity was developed in Europe over thirty years ago by Dr. Simeons. Trudeau has slightly modified the original weight loss protocol, but the basics are the same.

Dr. Simeons was a European doctor that discovered the use of HCG in successful weight loss in the 1950s. The HCG weight loss protocol has been adapted for modern use by Kevin Trudeau, and has a large following among dieters seeking to lose weight. Today, the HCG protocol offers a weight-loss solution that does not involve surgery or starvation. Finding a reliable source for information and supplies, as well as a good-old fashioned support network are critical to a successful weight loss campaign.

Offering all the latest HCG supplies and accessories, HCGSupplies.com was founded to give customers not only the best products for weight loss, but also thorough support so that people can properly understand how HCG can be used effectively in weight loss. While HCGSupplies.com does not sell HCG, the web site sells everything a person might need to properly use the product. Syringes, vials, HCG mixing kits, various mixing solvents, HCG recipes, and much more. For more information, please visit <http://www.hcgsupplies.com>.
