

## Facial massager on Live TV Show

*BestSkinCareWorld.com was recently launched to give consumers a step by step guide on how to use the facial massager for different skin types. The user-friendly website also provides free skin care guides, and other information to help people take care of their skin to avoid cosmetic surgery. Visit [www.BestSkinCareWorld.com](http://www.BestSkinCareWorld.com) to read more about this facial massager.*

November 2, 2009 (FPRC) -- Best Skin Care world is pleased to announce that their branded facial massager is being broadcast by a live TV show in California. Since the introduction of this galvanic facial massager by Best Skin Care World, this facial machine has gained popularity among middle aged women. This branded skin care machine known as the Fyola, helps absorb nutrients and eliminates waste below the skin.

Two weeks ago, the Balancing Act TV show featured this facial machine on their live show. This week, the Balancing Act will air the Fyola facial machine episode again to educate viewers on how it works, and how to use the galvanic machine for best results.

The Fyola facial massager is similar to expensive galvanic machines used in high-end beauty salons but this machine is smaller and portable. It's the only patented FDA and UL approved facial machine that integrates galvanic ion and ultrasonic wave technology. It's safe and can be used at home.

The majority of people don't realize that the skin interferes with the absorption of nourishment products such as creams and lotions. The reason why many skin care products give disappointing results is due to the protective barrier of the skin. Most expensive skin care products merely lay on the surface of the skin where it becomes useless. With the Fyola facial massager, the lotion or serum can be absorbed into the skin.

This innovative facial massager is now available for everyone, not just celebrities. A complete facial treatment can be done at home in 4 minutes or less. And it's affordable.
