

Maryland Home Remodeling Contractor BT Martin Contractors Selects Frederick Web Promotions As It's Agency of Record.

BT Martin Contractors chooses Frederick Web Promotions to handle it's search engine marketing, social media consulting, offline advertising and marketing consultancy. After poor return on investment from conventional media advertising and wasting money on past internet marketing endeavors from less experienced online advertising agencies BT Martin Contractors found effective representation.

November 10, 2009 (FPRC) -- Frederick Web Promotions will be providing top ten Google rankings for highly competitive keyword phrases to vastly increase the number of serious inquires for Montgomery County Maryland home remodeling. Saying he needs 'eyeballs on his website', Dan Martin interviewed numerous advertising agencies and search engine optimization firms before selecting David Bruce Jr of Frederick Web Promotions.

'We saw what David did for local Frederick Maryland small businesses that we drive by every day, filling almost the entire search results page with entries and listings pointing to his clients phone number and website.' Dan exclaimed. 'We already had a website that we were satisfied with, we just didn't have the search engine ranking to get many phone calls'.

Providing not only superior quality craftsmanship, BT Martin Contractors is a family operation with Appalachian integrity. 'When I interviewed Dan and Ben I felt like I was talking with Andy Griffith!' said David Bruce. Frederick Web Promotions chooses it's clients carefully: 'I wont represent someone if I don't feel like they have integrity' David explained.

'In years past I was a landscape contractor in wealthy Chevy Chase DC, those people wont hire you without being super comfortable about having you in their home', 'it's a character thing, if don't get to compete there without being a genuinely honest person'

Dan and Ben Martin grew up in the Tennessee Valley and have been working with carpentry and all aspects of home improvement since they were pre teens.
