

Use Your Brain, Create Brand Names

To promote TheBrandGenerator software for iPhone, the marketing team offers each day a new list of powerful created brand names, for free.

November 10, 2009 (FPRC) -- To promote TheBrandGenerator software for iPhone, the marketing team offers each day a new list of powerful created brand names, for free.

Each day, at 10 AM (Paris), TheBrandGenerator presents in its blog, a new list of powerful new created brands, from a selected key concept. For all kind of business, small, medium, or big business.

Just select the one you like, and be the first to do the legal deposit ! There is no charge, just to offer creative ideas for business, and to promote TheBrandGenerator, the professional tool to create brand names with Iphone and Itouch.

What is The Brand Generator ?

Today, The Brand Generator is #2 bestseller apps in Business Category in France, only 20 days after its launching.

The Brand Generator is an apps to create names (for a brand, a product, a company, an event, a project...). This is the first professionnal tool to do that.

It's powerfull and easy to use. It works with marketing positioning, and generates semantic items linked with the positioning. There is 25 marketing positions in the Pro version, which can generate up to 575 names, classified by positions, for each project.

Keep attention : It's a tool, not a wand ! An help for those who are looking for a name (see tips on the website).
