

Home Loan Modification Experts Home Rescue LLC Receives Better Business Bureau Accreditation

Maryland home mortgage modification company, Home Rescue LLC has recently received its accreditation from the Better Business Bureau (BBB).

November 11, 2009 (FPRC) -- COCKEYSVILLE, MD – Maryland based home loan modification advisers Home Rescue LLC has received its BBB accreditation in October 2009. From a scale of A+ to F, the company has been awarded an A- rating with points reduced only because the company is relatively new and has been operational since July 2008. However, the fact that Home Rescue LLC is a new company founded during the new rules of the home economy, provides advantages over traditional companies.

Home Rescue LLC is a leading home mortgage modification company helping homeowners across the US reduce their mortgage payments and even avoid foreclosure. The company works with the consumer's lender to restructure loans and create professional and effective plans designed to reduce the homeowner's financial stress.

"As a direct result of the economic crisis, US homeowners have been experiencing considerable stress in relation to their home loans, often not even realizing they have better options. Our goal is to help consumers get the most out of their home loan by professionally modifying it to suit their needs so they can save money and avoid having to worry about a foreclosure," says Duncan Douglas of Home Rescue LLC.

In little over a year, Home Rescue LLC has established itself as a clear market leader, providing consumers with financial consulting solutions. In addition to its newly acquired BBB accreditation, the company proudly boasts of being an Online Business Bureau certified trusted site; assuring consumers Home Rescue LLC is a trustworthy and reliable business.

The Better Business Bureau provides reliability reports on companies in USA, Canada and Puerto Rico and is a trusted resource to check up on a company's history. The Bureau does not endorse particular companies but reviews businesses based on certain set BBB standards. Only businesses that comply with the set standards are awarded BBB accreditation.

An accreditation with the Bureau confirms that the home mortgage modification firm is a trustworthy and reliable business. An A- rating is added assurance for consumers looking for a company that helps them cost effectively reduce mortgage payments or even prevent their home from being foreclosed.

"The BBB accreditation with an A- industry rating is an added feather in the cap for Home Rescue LLC. We have always believed in providing consumers with top notch services and the new accreditation bears testimony to this. We are excited, delighted and at the same time very proud of being a BBB accredited business," concludes Douglas.
