

Innovative New Website Offers Cabo San Lucas Visitors Information and Cabo San Lucas Diving Excursions

New website Cabo Scuba Dive.com offers Cabo San Lucas visitors with an innovative and user-friendly design to make finding information on Cabo San Lucas scuba diving excursions as simple as possible

November 18, 2009 (FPRC) -- Cabo San Lucas visitors looking to experience a one-of-a-kind Cabo scuba diving trip off the picturesque coast of Cabo San Lucas can now find information and various diving trips in one comprehensive website, Cabo Scuba Dive.com.

With an innovative and user-friendly design that makes browsing and finding information easier than ever, Cabo Scuba Dive aims to be the one-stop shop for all kinds of Cabo scuba diving excursions including instruction, certification, introductory courses, and even snorkeling.

The website also provides visitors with information on the world of Cabo diving including Cabo San Lucas diving destinations, weather, and detailed descriptions of the different kinds of diving trips visitors can choose from.

Certified scuba divers coming to Cabo San Lucas can choose between morning and afternoon dives; one, two, or three tanks; and various diving combos including the fantastic Sail-and-Scuba package.

Travelers coming to Cabo San Lucas who are not scuba certified can still experience a Cabo San Lucas diving adventure. They can go on the introductory Discover Scuba Diving course which features instruction in a pool setting followed by a one- or two-tank dive to the Cabo coral reef accompanied by an expert Cabo diving instructor. People looking to take their scuba diving a little further can also complete their Open Water Certification course right in the beautiful vacation paradise of Cabo.

"We wanted to make a website that has all the information our visitors need to know to go on a Cabo San Lucas diving trip," says Cabo Scuba Dive president Juan Zapatera. "In addition to the website and all the information on there, we also have customer service agents and diving experts on hand seven days a week to answer any questions visitors might have."

While the website was just launched last week, the center has been providing visitors with Cabo San Lucas trips for almost a decade via the website's sister company Best On Cabo. Together, the two companies hope to provide the most unforgettable top-quality Cabo San Lucas scuba diving experiences anywhere.
