

Jewelry Manufacturer Launches New Process to Turn Person's Tattoo Into Jewelry

Designs 'N Gold, a Hawaiian jewelry manufacturer has devised a method of turning a person's tattoo into gold or silver jewelry.

December 8, 2009 (FPRC) -- Designs N Gold, a Hawaii based Hawaiian jewelry manufacturer, is pleased to announce the launch of their process for turning a person's tattoo into gold or silver tattoo jewelry in bracelets, rings, pendants or other types of jewelry.

A tattoo is an expression of the beholder. A reflection of one's heritage, belief, hobby, religion or just a design that is dear to them. The impression is long lasting and brings joy and comfort. Tattoos have served as rites of passage, marks of status and rank, symbols of religious and spiritual devotion, decorations for bravery, sexual lures and marks of fertility, pledges of love, punishment, amulets and talismans, protection, and as the marks of outcasts, slaves and convicts. The symbolism and impact of tattoos varies in different places and cultures. Tattoos may show how a person feels about a relative (commonly mother/father or daughter/son) or about an unrelated person. Today, people choose to be tattooed for cosmetic, sentimental/memorial, religious, and magical reasons, and to symbolize their belonging to or identification with particular groups,

"Designs 'N Gold is able to preserve a person's tattoo art in a piece of jewelry in 14Kt. gold or sterling silver that can then be handed down to the next generation and the next. Our company's highly skilled jewelers take great pride in creating a person's tattoo art design in precious metal" commented Colette Aoki, the owner of Designs 'N Gold.
