

Revolutionary Smokeless Cigarette Personal Charging Case

New PCC technology will put an end to the lithium battery going dead in the middle of the day.

December 16, 2009 (FPRC) -- Quality Smokeless Cigarettes is now offering the latest state of the art PCC Electronic Smokeless Cigarette. This new PCC technology will put an end to the lithium battery going dead in the middle of the day. The Model 702 PCC contains a 1200mAh rechargeable power pack, after the PCC is fully charged you can recharge your Smokeless Cigarette battery up to about 8 times before you have to recharge the PCC Case. Now with your new Model 702 you can really smoke everywhere and anytime.

The Model 702 Smart PCC has a LCD battery parameter which will act as a friendly reminder for you so you will recharge the power pack in time. Charging your case is easy you simply connect your Smart PCC to a supplied USB Cable then to an AC adapter and plug it into any 100 outlet. Your Smart PCC Case will be completely charged in 3 hours.

To charge your Smokeless Cigarette open the PCC case and screw in the E-Cigarette battery into the hole for charging, and then press and hold down the button on the outside of the case for about 2 seconds and the PCC will begin to charge your E-Cigarette battery. When pressing down the button on the outside the Smart PCC LCD parameter will indicate the PCC power status. And at the same time the LED in the case will light. When the E-Cigarette battery is fully charged the light in the case is Green otherwise the light is Red. After 5 minutes the PCC will go into power saving mode and the LCD and LED light will not shine until you re-press the button to check the charging status.

The Model 702 smart PCC Smokeless Cigarette will come with (1 Atomizer, 1 Rechargeable Lithium battery, 4 Nicotine Cartridges your choice of flavor Marlboro or Mint (Menthol) and different nicotine strengths High = a Regular Cigarette, Medium = a Light Cigarette and Low = a Ultra Light Cigarette.), 1 USB cable, 1AC Adapter and 1 Smart Portable Charging Case.
