

Cosmetic Cosmos Introduces New Botanical Anti-Aging Skincare Products

Six nutrient-packed, dermatology-tested products help rejuvenate tired holiday skin

December 18, 2009 (FPRC and NEWPORT, RI) -- Cosmetic Cosmos, a trusted supplier of mineral makeup, anti aging skincare products and wedding make up services, today introduces six new protective and anti aging skincare products clinically engineered to help reduce the effects of environmental stresses to skin.

“The combination of hectic holiday schedules and exposure to winter elements is extremely harsh on skin,” said Sherry Brice, president, Cosmetic Cosmos. “Our latest skincare offerings combine the newest advances in skincare to help clients rejuvenate one of their most precious assets—their skin.”

Cosmetic Cosmos Total Eye Repair is a convenient, all-in-one eye cream formulated to eliminate puffiness, erase dark circles, hydrate and refine skin tone. The formula contains CoQ10, hyaluronic acid, haloxyl, vitamin K, eyeliss, squalane (reduces swelling), three peptide formulations and emollients. To round out the bedtime skin ritual, Creme Noir Mineral Moisturizer (night cream) is a blend of minerals from the French Polynesian Island of Moorea, botanicals and vitamins in an oil-free gel formulation. Crème Noir deeply hydrates moisture deprived skin, encouraging a smoother, firmer, more hydrated complexion — overnight.

Traveling to warmer climates this holiday or enjoying a run down freshly powdered slopes, skin conscious shoppers will find Green Tea SPF 30, an antioxidant green tea base with broad spectrum protection an excellent choice, This light weight anti-aging moisturizing formula contains aloe, anti-oxidants alpha lipoic acid, vitamins A and E, Argireline, anti-wrinkle peptide and rice. In addition, Oil-Free Green Tea SPF 25 Spray provides broad spectrum sun protection in an oil-free green tea base - perfect for oily skin, those active in sports or on bald or shaved heads. Great for traveling. Contains aloe, vitamin e and rice peptides.

Touch of Sun Tinted Botanical Moisturizer SPF 15 is a hydrating, oil-free tinted moisturizer with hyaluronic acid, squalane and vitamins A and E, that restores skin’s essential moisture while providing sheer, natural coverage. Protects skin from free radicals and environmental damage. Touch of Tan Tinted Botanical Moisturizer has the same properties as Touch of Sun, but in a slightly darker tone to impart a slightly tan glow.

Cosmetic Cosmos scours the planet for the latest, most advanced skin care and cosmetic products with the goal of offering customers the best products to protect and beautify the body, from head to toe. Based in Newport, Rhode Island, Cosmetic Cosmos offers both men’s and women’s products, which can be shipped around the world through its online store at www.cosmeticcosmos.com.
