

## **J.B.MacLean Consulting Inc. to Provide Full, Efficient, Seamless and Simple, Data backup to Individuals and Corporations.**

*Canada's foremost IT Forensic Security firm joins forces with Scratch Telecom to protect individuals and corporations alike.*

TORONTO, On – J.B.MacLean Consulting Inc, announced today that it has now entered into an agreement with Scratch Telecom. This full service agreement allows J.B.MacLean Consulting Inc, Canada's foremost IT security organization to manage and facilitate all data backup services for Scratch Telecom.

This agreement will deepen J.B.MacLean Consulting Inc's position in the world of IT security and the services offered will eliminate any concern that individuals and businesses have about their data security and privacy.

Operating under the name data backup service, J.B.MacLean Consulting Inc. will facilitate mobile protection to data, allowing back up to take place anywhere, anytime, with complete flexibility, layered security and no limitations.

'In todays fast pace world of technology, security is integral and paramount. However, no individual or organization should ever have to worry about the safety of 'their data'. Data should be protected at all times and accessible any time it is needed.' said Brent MacLean, President and founder of J.B.Maclean Consulting Inc. 'This partnership will continue to allow J.B.MacLean Consulting Inc. to maintain its strong leadership position in IT security and provide its clients and the clients of Data Backup Service with peace of mind when it comes to data integrity'.
