January 4, 2010 (FPRC) -- CHB Products, LLC, a Boulder-based retail company, announced the launch of their new Anti-Aging Store brand and website ([www.Anti-AgingStore.com](http://www.Anti-AgingStore.com)). The new site provides visitors access to high-quality health and beauty products at competitive prices.

"We created the Anti-Aging Store site to appeal to web visitors searching for products to fight the effects of aging," says James Martell, founder of CHBP, "The focus of the site represents a unique product line with many all-natural hair care, skincare, weight-loss and supplement products. Our products are made right here in Colorado and do not contain the perfumes or coloring agents many consumers are allergic too."

The Anti-Aging Store offers a variety of over 100 products for men and women. Some of the more popular product categories on the site include collagen supplements, weight loss wraps and anti-wrinkle creams. With a niche group of consumers in mind, Colorado Health and Beauty Products created [Anti-AgingStore.com](http://Anti-AgingStore.com) to provide quality anti-aging creams, wraps and supplements at aggressive prices.

"We're excited about the addition of [Anti-AgingStore.com](http://Anti-AgingStore.com) to our properties and look forward to its growth and success," adds Martell. In conjunction with the launch of the new site, the Anti-Aging Store is currently offering 15% off all products for a limited time with the coupon code, grandopen1.

### About Colorado Health & Beauty Products

CHBP, LLC was formed in 2008 on the foundation of becoming one of the Internet's premier retailers. Our unique product line, exceptional customer service, and privacy/security policies set us apart from the other online shopping options. We strive to provide customers with a functional and secure avenue through which to purchase products they desire.
