

SwitchEasy Innovative Cases For iPhone 3G / 3GS And iPod Touch 2G / 3G Now Available At Cases.com

Cases.com, an online superstore for phone cases and accessories, recently added SwitchEasy innovative cases to its wide selection of quality phone products. Both SwitchEasy iPhone 3G / 3GS cases and iPod Touch 2G / 3G cases are available.

February 9, 2010 (FPRC) -- AURORA, CO – Leading online electronic device cases and accessories superstore, Cases.com, recently announced the addition of SwitchEasy cases to its expansive product offering. Utilizing unparalleled technology, the innovative cases provide unique phone protection through radical new designs and materials.

Cases.com is now offering SwitchEasy iPhone 3G / 3GS cases as well as iPod Touch 2G / 3G cases. Available iPhone 3G / 3GS SwitchEasy cases include the Capsule Rebel, Rebel Serpent, Capsule Rebel M, Capsule Neo and Vulcan styles. Additionally, the Rebel Touch and Neo Touch styles are compatible with iPod Touch 2G / 3G.

"Cases.com is thrilled to offer such a wide selection of SwitchEasy products. SwitchEasy uses the newest materials available to create cases that simply haven't been done before. Additionally, their cases include a lot of added features, such as two screen protectors with each package and even plugs to cover up certain openings on the phone to protect them when not in use," says Alex German of Cases.com.

The SwitchEasy Rebel series, including the Capsule Rebel, Rebel Serpent, Capsule Rebel M and Rebel Touch styles, feature an UltraFrame™ hard protection system. This breakthrough design includes a hard exoskeleton frame constructed from patent-pending Lexan® polycarbonate to protect phone parts from potential damage. For added protection, the new SwitchEasy Rebel cases also include Adaptive Dynamic Soft Polymer (ADSP) under the hard shell frame to protect the phone's delicate surface. Both soft and tough, ADSP effectively diverts shock and is extremely resistant against soiling and discoloration from everyday use.

Along with superior technology, the Capsule Rebel and Rebel Touch cases also come standard with a Rebel Essentials unit. A replacement back part of the case, The Rebel Essentials unit is an accessory piece available in black, purple, red, orange and white.

Like the Rebel cases, SwitchEasy's Vulcan cases also feature innovative technology to offer high quality phone protection. As one of the first full covered cases on the market, Vulcan cases feature a modern design made from durable anti-tear, scratch resistant materials. As part of the full coverage design, the Vulcan's button elements have been uniquely engineered to allow users comfortable and easy tactile response.

Additionally, like other SwitchEasy cases, the Capsule Neo and Neo Touch provide a winning combination of sleek style and durable protection. The Neo cases feature a 0.6mm Tactile Thin Silicone Membrane to envelope the phone, eliminating any contact from the exterior hard plastic. The Neo's unique seven point locking system also keeps a phone safe and secure, even if it is dropped accidentally.

"Like all of our products, the new SwitchEasy cases for iPhone and iPod Touch offer superior phone protection at an affordable price. The innovative technology used in the case design, along with the wide selection of case styles and array of beautiful, vibrant colors is sure to please everyone," concludes German.
