

## **Access Discounts Announces Sale on Grow Lights in Time for Spring Gardening Season**

*Use discount code ACCESS5 to receive additional 5% savings off already low prices*

February 25, 2010 (FPRC) -- AccessDiscounts.com, a leading supplier of grow lights, residential lighting and commercial lighting, is celebrating the start of the Spring gardening season by offering storewide savings on its entire selection of grow light systems, bulbs and accessories. The online retailer is a complete shopping solution for all gardeners, from beginner to advanced.

Thanks to increasingly energy-efficient, "greener" lighting solutions, gardening is moving indoors at an unprecedented rate.

Indoor gardening continues its rise in popularity due to its numerous advantages over outdoor growing, and not just to those living in harsh climates or small spaces. An indoor garden helps create a cleaner environment by absorbing hydrocarbons and airborne chemicals and allergens, all while releasing oxygen. And now the clinically proven therapeutic effects of gardening as an activity can be enjoyed any time of day, year-round.

Meanwhile the organic gardening boom of the last decade, fueled by growing interest in nutrition and overall health along with concerns about environment, has only further broadened the scope and possibility of indoor growing as more people each year decide to indulge their inner green thumbs.

Arguably the greatest application of grow lighting is its usefulness in hydroponic gardening, which is increasingly preferred to conventional soil-based gardening due to its superior water-efficiency and higher, more stable yields. The controlled environment of a hydroponic garden results in far fewer problems with disease and pests, and the adaptability of the method makes gardening possible in all manner of small, indoor spaces.

AccessDiscounts.com has been a leading supplier for growers and gardeners since its establishment in 2002, offering a top-to-bottom inventory of grow lights, fixtures, bulbs and accessories. "We're proud to be an indispensable resource for growers of all levels, from recreational to commercial, anyone who wants to join the growing community of indoor growers, really." says the company's spokesperson Christina Roush.

Among AccessDiscounts' most popular items are its complete grow light systems. Touted by the retailer as the finest available, the 100% American-made systems come in a wide variety of types, from fluorescent and LED-based lighting kits suited to smaller gardens, to higher-powered metal-halide and high-pressure sodium-based systems for larger, higher yield gardens. AccessDiscounts.com also boasts an complete inventory of parts and accessories related to grow lighting- fixtures, grow light ballasts, grow light bulbs, replacement capacitors and more, all backed by a 100% satisfaction guarantee.
