

Priced As Low As \$1.29 Per License The Vexira AntiVirus Educational Discount Program Helps Technology Coordinators Cut Costs, Not Protection

Schools can save thousands of dollars by switching to the Vexira Antivirus Safe@School Educational Discount Program

February 25, 2010 (FPRC) -- Central Command Inc., a leading provider of antivirus, antispyware and antithreat solutions for schools, businesses and enterprises, announced today the immediate availability of the Vexira Antivirus Safe@School Educational Discount Program that allows all educational institutions to affordably defend themselves from computer virus, spyware and malware attacks. Educational institutions can purchase Vexira(R) Antivirus for as low as \$1.29 per license.

Schools today require dependable Internet threat protection. With millions of known computer viruses, worms, spyware and other threats, it is imperative that each workstation on all campuses be fully protected.

Vexira Antivirus is long known for providing world-class antivirus, antispyware and Internet threat protection that is developed to eliminate viruses, spyware and other threats with its resilient and dependable operation. It is a scalable, multi-platform Internet threat protection solution for any size network. Using powerful threat scanning technology and active malware defenses, Vexira Antivirus closely monitors for known hostile or suspicious activity on local hard disks, network drives, USB drives, e-mail attachments and Internet downloads. Educational institutions use Vexira Antivirus to protect desktops and file servers within computer labs or across entire campuses without hindering the student's work.

"Vexira from Central Command is aggressively protecting our desktops and servers from viruses, spyware and other Internet threats. We are confident we made the right choice to switch to Vexira. It is a pleasure working with their US-based technical support that is very knowledgeable about the Vexira products and the unique challenges faced within school districts," said Vince Pastre, Computer Technician, Buckeye Local School District.

"Vexira Antivirus is the ideal solution for schools and Technology Coordinators to use to protect students, faculty and staff from Internet based threats," said Keith Peer, CEO of Central Command, Inc. "With our Vexira Safe@School Educational Discount Program we have made dependable Internet threat protection easily affordable for all schools. Vexira is backed by our experienced support staff that is trained in the unique conditions present in schools and dispersed campuses."

This innovative pricing program allows educational institutions to purchase the same complete antivirus, antispyware and Internet threat protection software offered to corporate, military and government clients for as low as \$1.29 per license with multi-year discounts and special unlimited use licenses available.
