

Finally, 100% Plastic Pinochle Cards Are Available at Playing Cards And More

At last Pinochle Players can enjoy playing with 100% plastic Pinochle cards, thanks to playing cards And More answer your calls to produce a better product.

February 28, 2010 (FPRC) -- Any serious Pinochle player knows his options regarding quality playing cards have been limited in the past. Pinochle players make daily searches looking for plastic pinochle playing cards. And why shouldn't they have great plastic cards to play with? Poker players do, Bridge players do.

Now, they wishes are a reality. We teamed up with the creative mind behind DESJGN playing cards, Jason Hawley, to create a unique design for the plastic Pinochle decks we wanted to introduce. Any one familiar with Jason's work in the past of designing poker and bridge cards, will recognize the style and grace that Jason incorporated in our new 'Medallion' line of plastic Pinochle cards.

We have been selling the two deck setup for the low price of only \$17.95/setup. Our customers are already emailing us back with comments like: "Thank you! We thoroughly enjoy playing with the new Medallion plastic cards." "Finally, my Pinochle group is satisfied with your new Pinochle decks, I will be ordering more."

We are pleased to bring the Pinochle community a new product that we are sure is going to be a big hit. No longer will the players have to suffer through playing with cheap paper cards. Our new plastic cards do not bend, break, crease, or warp. If they get a little dirty from frequent play, they wash up with some mild soapy water, and they are as good as new.

These new cards are going fast, come see what all the excitement is about!
