

## **MyTarp.com Adds Custom Poly Tarps**

*The online superstore of tarp products, MyTarp.com, adds custom poly tarps to give customers more options.*

April 13, 2010 (FPRC) -- MARIETTA, GA - MyTarp.com, an online tarp superstore, has added custom poly tarps to their already superior collection of tarps.

Poly tarps are their most popular as they are both strong and versatile. These tarps are widely used in construction and roofing, as well as for outdoor covers. All of MyTarp.com's poly tarps are waterproof, mildew-resistant and tear resistant. Poly tarps have both superior cold weather performance as well as built-in UV protection.

MyTarp.com has over twelve types of poly tarps along with many different colors to choose from. "Although MyTarp.com already had a great variety of poly tarps, we wanted to ensure our customers could get exactly what they need. The addition of the custom poly tarps means that from economy to heavy duty to super heavy duty, there is a poly tarp to suit every customer's specific needs," says Steve Gao, Customer Service Manager of MyTarp.com.

The tarp online superstore creates custom poly tarps which usually ship in approximately one week. These tarps come in a variety of styles including blue, white, silver/black, silver/white, flame retardant as well as clear poly.

Blue tarps are lightweight yet durable as well as thicker than other super thin tarps. In addition to being waterproof, mildew resistant and tear resistant, these poly tarps are also rot and acid resistant.

White poly tarps have many of the same characteristics as the blue and are extremely strong and durable. They are normally used for roofing, woodpiles, trailers, RV covers and landscaping.

Poly tarps also come in two-tone colors including silver/black and silver/white. These tarps are super heavy duty with outstanding strength and performance. Their 14 x 14 weave provides maximum wear and weather protection.

Flame retardant tarps are super heavy duty with outstanding strength and performance. These tarps come in an off-white/pale yellow color and are a 14 x 14 weave for maximum wear and weather protection.

Clear poly tarps are heavy duty with long lasting strength and performance as well.
