

CondoWorldResorts.com Provides Travelers an Easier Way to Find Beach Vacation Rentals

A leading source for Charleston vacation rentals, CondoWorldResorts.com, announces better options than beach vacation rentals by owner for their customers.

April 13, 2010 (FPRC) -- NORTH MYRTLE BEACH, SC – Condo-World, the number one vacation rental source for luxury condos, villas and beach homes along the Myrtle Beach Grand Strand, is proud to introduce a website that makes it easier and more efficient for travelers to find beach vacation rentals in all areas of the Carolinas.

Vacationers have the option of choosing from Myrtle Beach, Hilton Head, and North Carolina beaches, as well as Charleston vacation rentals, allowing them to immerse themselves in North & South Carolina's culture, as well as offering the best value with a variety of nearby attractions.

When planning a vacation to the Carolinas' Coast, there are hundreds of vacation rental accommodations from professional vacation rental companies to choose from, including many options for beach homes, condos and villas. Beach vacation rentals have become increasingly popular among travelers as they provide more rental amenities, space, privacy and value than resorts and hotels. Vacation rentals are packed with various amenities and can be found in all areas of resort destinations located close to attractions, golf courses, dining, shopping and other activities.

"There are some distinct advantages to renting a professionally managed vacation rental. In many cases, the quality, service and price are far better than renting from a private owner. Customers can be certain that the rentals are maintained year round and that the prices are determined based on competition and seasonality, and not just set at a flat rate at the beginning of the year" says Alex O'Neil, Marketing Director of Condo-World.

When renting from a professional company, the vacationer can feel confident that the rental accommodations are maintained throughout the year. The condos, villas and beach homes are held to high standards for maintenance as well as aesthetics, whereas renting directly from the owner may result in some unforeseen problems arising.

Another benefit travelers receive when renting through a rental company is the invaluable knowledge of the area provided by staff members on the best attractions, dining, places of interest, shopping and more. If for any reason the vacationer is unsatisfied with the vacation rental, most rental companies are more than willing to accommodate them to find a more suitable rental.

"Vacation condo rentals are commonly less expensive through a professional company like Condo-World, because the price is decided by competition among our properties and those for rent by private owners. We have the ability to regularly check competitor prices and have the in-depth knowledge of our local rental market at various vacation times to ensure the our customers receive only the best rates," says O'Neil.
