

CertExams.com - Simulator Software Update

CertExams.com, a leading network simulators provider has affected major update to its packaged software. The changes include real-time activation using XML, multiple licensing, and improved user interface.

April 27, 2010 (FPRC) -- CertExams.com, a leading IT certification simulators provider has recently released a major update to its simulator simulsoftware that includes the following:

1. Real Time Activation of the downloaded product
2. Multiple licensing for customers who had purchased in bulk
3. Ability to support cross-selling or up-selling
4. Improved user interface

The improvements are applicable all the recently released software titles including the following:

1. CCNA ExamSim
2. Network Simulator w/Designer for CCNA,
3. CCNA CBT, and
4. Exam Simulator for SCJP

Additional products (CCENT ExamSim, etc.) will be released shortly. By using automated online licensing, users will be able to unlock their software titles directly using program interface without any human intervention.

All software titles are tested for compatibility using Windows 9x, 2000, XP, Vista, Windows 7. Minimum screen resolution required is 800 by 600. The software offered by CertExams.com is most reasonably priced, and free from any adware, malware, any other tracking cookies.

Additionally, the website offers exam hosting for candidates who want to host their own exams. Please contact the webmaster for further details on the same.
