

New Opportunity For Earning A Bible College Degree

True Hope Bible Institute is now celebrating its 'Grand Opening' offering fully accredited Bible Degrees and Special Study Certificate Programs.

April 28, 2010 (FPRC) -- Alma, AR USA - True Hope Churches & Ministries announces their newest service to the Christian community - - the True Hope Bible Institute!

True Hope Bible Institute, based in Alma Arkansas is fully accredited by the W.W.A.C. (a worldwide Christian accrediting agency) and also recognized by the Arkansas Department of Higher Education as an exempt Christian School thereby authorized to offer study programs ranging from Associates to Doctor Degrees.

True Hope Bible Institute is a distance learning institution that will be using web conferencing for special learning opportunities. Unlike many typical 'online schools', True Hope Bible Institute provides bound, hard copy study materials which will avoid printing and other costs for the student while at the same time allowing the students to build lifelong resource libraries.

The True Hope Bible Institute curriculum develops a full Gospel perspective yet with no denominational bias thereby giving students a practical, life application approach in learning their chosen field of study throughout their courses of study.

Whether the student is working for a Doctorate or a special studies diploma, the focus of True Hope Bible Institute is to develop the student's understanding of the study material for the greatest possible effectiveness in both ministry and personal life rather than just an accumulation of information to earn a passing grade.

Chancellor Dr. Timothy Hoflund, D.D. is looking forward to working with those Christians serious about building a strong Biblical foundation for their lives and ministries.
