

## **Wood Creations Inc. Is Excited To Announce Personalized And Laser-Engraved Toy Boxes**

*A leading toy box website, WoodToyBox.com, has added the option of a laser-engraved or personalized toy box to their already extensive list of products.*

May 10, 2010 (FPRC) -- BISMARCK, ND - Wood Creations Inc., a leading toy box distributor and website, has expanded their line of toy box options to now include personalization and laser-engraving to further customize each toy box.

While there are a multitude of storage options available on the market, nothing compares to the unique craftsmanship and durability that comes with the wood toy boxes either created or sold at WoodToyBox.com. From classic wooden toy boxes and wooden toy chests to hope chests and blanket chests, these products are handcrafted in 100% wood including beautiful oak, cherry or espresso wood finishes with no particle or MDF board.

These toy boxes serve a wide range of purposes, and the most common usage is to keep children's toys clean and organized, offering ample storage space for the child. There is also a lid attached to each toy box, lessening the clutter for the parents. Children can also use the toy box for a bench to sit on and the chest naturally fits perfectly at the end of their bed or under their window, seamlessly blending in with the rest of the home's decor.

There are several different toy box designs to choose from including the bears and block design as well as the train design which adds a level of personality to each wooden box. Additionally, customers now have the ability to incorporate the name of the child in a laser-engraved or personalized toy box, featuring quality workmanship and classic design.

Unlike any other company, WoodToyBox.com offers both handcrafted toy boxes and manufactured toy boxes utilizing the personalization option. Their exclusive service is to personalize toy boxes with the child's name engraved on the front, although the company also offers manufactured toy boxes with self-adhesive lettering, catering to any child's dream toy box. Customers have the choice of eight different fonts in either upper or lower case including vegabond, brush hand, brush script, snap, dom casual, old english as well as cookie.

The laser-engraved boxes include various fonts to choose from as well including "gold leaf" lettering, edwardian, thematic, calligraphy, cookie as well as the full thematic alphabet.

Aside from their functionality, these handcrafted boxes available in a variety of woods, are decorative and have the ability to blend in with the home's decor beautifully. "Not only did we want to create a wooden toy box that serves the children's purpose of storing their toys in a safe and clutter-free place, but we also wanted the toy boxes to be a thing of beauty. Customers now have the ability to personalize their toy boxes to not only make a statement but to create a family heirloom as well," says Bob Beck, President, Wood Creations Inc.

About Wood Creations Inc.:

Wood Creations Inc. is a family-owned business that produces handcrafted toy boxes and chests. Operated by Bob and Julie Beck, the business started many years ago after creating toy boxes for

friends and relatives who had children and has further expanded since then. With a multitude of various toy boxes and chests with either special designs or personalized lettering offered on the site, Wood Creations has something for everyone.
