

The Yawara-Jitsu Union Has Released Its First iPhone Application, Spanish Trainer

Spanish Trainer is an application that helps the user improve its Spanish vocabulary in a fast, easy and entertaining way.

May 11, 2010 (FPRC) -- The iPhone application Spanish Trainer has been released in the Apple iTunes Store, (<http://itunes.apple.com/us/app/spanishwordtrainer-full/id369126390?mt=8>)

Spanish Trainer is an application that helps the user improve their Spanish vocabulary in a fast, easy and entertaining way.

Spanish Trainer provides a set of the most common and useful words, organized by category. The lite version includes 2, and the full version 12 categories.

Features:

- Authentic native speakers pronounce all the words.
- The text option helps the user improve it's writing abilities.
- The multiple choice option helps the user improve it's understanding.
- No network connection is needed.
- Free updates.
- No need to configure or read a manual. Just install and start.
- The user isn't overwhelmed with thousands of words, but small units are offered. Each unit can be dominated in a short time.

Review Spanish words.

The user can choose a category, and one by one, all Spanish words, with their English translations , are repeated. All words are pronounced by native speakers. This option is used to study and learn the Spanish words.

Spanish WordTrainer.

The WordTrainer is the most important part of the application. It's where the user is tested.

He can use the trainer from Spanish to English, and, from English to Spanish. He can test his understanding of the words, using the multiple choice option, or test his writing abilities, with the text option.

The words in the category are repeated until all are dominated.

The iphone application Spanish trainer can be downloaded from:
