

## Individual Sightseeing Tours to St Petersburg

*Apartment rental agency ARENT announces a new service for its customers – individual sightseeing tours in St Petersburg with car rental option.*

May 13, 2010 (FPRC) -- Starting from May 2010 ARENT Company offers a new service to its customers – arrangement of individual museum tours and sightseeing tours of St Petersburg and city suburbs. Now the tourists are exempted from the necessity to bother about planning cultural events for the holiday. To more flexibility and comfort the tourists are provided with a rented car with driver.

"We offer to our customers the services of professional guides having good references and speaking different languages", – says Natalya, Company's Manager. – "We will take care of buying tickets to museums ourselves (the tourists who have already been lucky enough to visit St Petersburg, know it very well how it is sometimes difficult to get to this or that palace during the peak season). Besides it is not that much necessary for our clients to know working hours of the museums or the bridge raising times because they will be able to get this information at our office any time."

In order to support individual tours ARENT Company offers its customers a new service – rental cars (with drivers) of different types of comfort and capacity. "At good arrangement of excursions nothing will prevent our guests from enjoying the sights of St Petersburg", – adds Natalya.

ARENT Company has been working in real estate leasing market since 2000 and offers a full range of travel services: rental apartments in Petersburg and Moscow, airport transfer, car rentals, VISA SUPPORT, tickets reservation and sightseeing TOURS in Petersburg.
