

CondoWorldResorts.com Responds To Growth Of Rent-Direct-By-Owner Vacation Rental Websites

CondoWorldResorts.com, a leading provider of North Myrtle Beach and Outer Banks vacation rentals, is educating travelers on the benefits of booking professionally managed Hilton Head condo rentals rather than renting direct from an owner.

May 20, 2010 (FPRC) -- NORTH MYRTLE BEACH, SC - CondoWorldResorts.com has increased its efforts to educate travelers of the benefits of booking North Myrtle Beach condo rentals and other vacation rentals through professionally managed companies.

The website gives travelers access to professionally managed rental companies that offer Myrtle Beach, Charleston, Hilton Head, and Outer Banks vacation rentals. Finding your vacation rental through CondoWorldResorts.com partner companies offers many benefits and overall peace of mind not often found through rent-direct-by-owner websites.

"Booking your Hilton Head vacation rentals directly from an owner may originally seem like a good deal, however, professionally managed companies offer many invaluable benefits to ensure your vacation enjoyment. If you rent through an owner and are unhappy with the property, or there is a maintenance issue during your stay, there often isn't much that can be done. If you had rented through a professional company and either of those situations were to arise, most companies would make every effort possible to either find you a new rental or compensate you in some other mutually agreeable way. The staff at rental companies can also assist you with your plans during your stay, such as where to eat or excursions to book – very similar to a hotel concierge or front desk. These are just a few of the benefits of finding a professionally managed vacation rental on CondoWorldResorts.com," said Alex O'Neil, Marketing Director for CondoWorldResorts.com.

CondoWorldResorts.com compares the rental experience of renting through an owner versus professional companies for condo rentals, including Hilton Head vacation rentals. Managed companies ensure that consumers get quality vacation rentals with excellent customer service at affordable prices. Professionally managed rentals are maintained year-round, which minimizes the risk of running into unforeseen problems with the home or condo. Professional companies typically offer assistance around the clock to ensure comfort, safety and overall satisfaction. Many services also include departure maid service and linens for your convenience.

Vacation rentals are an increasingly popular alternative to hotels because of the space, luxury, and overall better value they offer. Many locations offer private pools and hot tubs, multiple bedrooms/living rooms, private decks/porches, full kitchens, multiple TVs/DVD players, and exercise and laundry facilities.

"CondoWorldResorts.com wants to help customers have the best vacation experience possible. That is why we are looking to educate them on the vast differences between the professional services we offer and rent-direct vacation rental sites." said O'Neil.
