

## **KTGY Principal Ken Ryan Invited to Speak on TOD Design Trends**

*KTGY's Principal Ken Ryan has been invited to participate as a speaker at the City of Fresno's Workshop, "Making Transit Oriented Development (TOD) a Reality in the San Joaquin Valley," on Friday, May 28, 2010, at the Fresno Convention Center. Ryan's presentation, "TOD Development: Design Trends, Considerations and Everything Else Mother Never Taught You," will feature the latest trends in the design of TODs including innovative, environmental-friendly technologies as well as how to create successful TODs that complement, revitalize and support the local economy. Ryan will highlight TOD examples, review lessons learned from initial ideas to the built environment, and offer insights regarding the challenges and opportunities for addressing the issues of place, livability, demographics/lifestyle, phasing, and mobility from a design perspective. Attendees will be provided a handout summarizing key Design Guideline considerations, areas to avoid, and elements to embrace as part of TOD planning. His presentation will start at 2:30 pm.*

May 20, 2010 (FPRC) -- IRVINE, CALIF. - Award-winning KTGY Group, Inc., Architecture and Planning, is pleased to announce that Ken Ryan has been invited to participate as a speaker at the City of Fresno's Workshop, "Making Transit Oriented Development (TOD) a Reality in the San Joaquin Valley," on Friday, May 28, 2010, at the Fresno Convention Center from 8:30 am - 4:00 pm. Ryan is a principal and head of KTGY's community planning and urban design studio and Ryan and his studio are currently serving as the design advisor for the Anaheim Regional Transportation Intermodal Center (ARTIC) High Speed Rail Transportation District, located next to Angel Stadium. ARTIC recently received Southern California Association of Governments' (SCAG) 2010 Compass Blueprint Recognition Award for Sustained Leadership and the 2009 Gold Nugget Outstanding On-the-Boards Site Plan Grand Award.

Ryan's presentation, "TOD Development: Design Trends, Considerations and Everything Else Mother Never Taught You," will feature the latest trends in the design of TODs including innovative, environmental-friendly technologies as well as how to create successful TODs that complement, revitalize and support the local economy. Ryan will highlight TOD examples, review lessons learned from initial ideas to the built environment, and offer insights regarding the challenges and opportunities for addressing the issues of place, livability, demographics/lifestyle, phasing, and mobility from a design perspective. Attendees will be provided a handout summarizing key Design Guideline considerations, areas to avoid, and elements to embrace as part of TOD planning. His presentation will start at 2:30 pm.

With over 25 years of experience, Ryan has been responsible for a wide variety of complex, high-profile projects throughout the United States. His impressive list of recent projects includes ARTIC, Corona High Speed Rail Transit District, Aldea Town Center at Porter Ranch, Chapman University, and La Floresta, a multigenerational urban infill community.

"By sharing some of our work, we hope to engage and enlighten attendees to the possibilities of how TOD, particularly as it relates to the current High Speed Rail efforts, provides a strong platform for addressing the issues of livability, affordability, sustainability and mobility in a deeper, more

integrated way," Ryan says. "It's more than reducing vehicle miles traveled (VMT); it's about applying the fundamentals of great neighborhoods to an urban setting and allowing for compelling memorable places to emerge."

Ryan has served on numerous local, regional and national boards including: two-term past Mayor of the City of Yorba Linda; past two-term Chairman of the Foothill/Eastern Transportation Corridor Toll Road Agency; past Board Member of the Orange County/Riverside County Major Investment Study (MIS) Corridor Agency; past Board Member of the Transportation Corridor System (TCS) Orange County Toll Road Agency. He is currently: Advisory Board Chairman for Abode Communities of Orange County; a member of the National Board of Directors for Trauma Intervention Programs, Inc.; Chairman of the Placentia Linda Hospital's Governing Board; and is an Advisory Board Member of Planning, Policy, and Design at U.C. Irvine. He is a past Member of the Board of Directors of the Orange County Fire Authority; and recently served as a Member of the City of Anaheim's Housing Element Ad Hoc Committee.

Ryan has been selected numerous times in Builder & Developer magazine's "Who's Who in Homebuilding", was recognized as one of the 25 Most Influential People in North Orange County Magazine, and was one of three representatives from the United States invited to participate in an International roundtable discussion held at the SINO-International Real Estate Summit in Shanghai, China. He guest lectures at University of Southern California (USC), California Polytechnic State University, Pomona, and University of California, Irvine, and has published numerous articles regarding the planning profession. He regularly participates in Orange County radio and television programs and printed media interviews and graduated with a Bachelor of Science degree in Urban Planning from California Polytechnic State University, Pomona.
