

Windermere Hotel Launches New Website

Situated in an exquisite position overlooking Lake Windermere, the Hillthwaite House Hotel offers luxury accommodation whilst being family owned and run.

May 27, 2010 (FPRC) -- Hillthwaite House Hotel understands how important the internet is and how it continues to grow in its importance within the travel and tourism industry. The hotel's newly designed website, <http://www.hillthwaite.com> launched yesterday was commissioned to keep them up to date within the industry.

The new, fresh look website has coincided with the recent refurbishment of the lounge, entrance hall and four bedrooms at Hillthwaite House Hotel. The lounge has been fully decorated and refurbished throughout including new carpet, furniture and sparkling chandelier. The entrance to this Windermere hotels hall has also been redecorated to complement the lounge and four of guest bedrooms have had brand new en suite bathrooms installed. The new images of the refurbished rooms are shown off to their best potential within the new design and if a new website and major refurbishment wasn't enough, a new streamlined online booking system provided by Guestlink has been incorporated making it even easier for guests and visitors to check real time availability and make bookings.

Purchased in 1971 by the present owners John and Marjorie Sodeau, the house was then called Hoggs Hill Close and was a six bedroom private residence from which a small private hotel in Windermere was born. The house was very different then, with a stable block in the area to the rear of the building and a tennis court at the front.

In 1980 the swimming pool extension was added and an additional 18 bedrooms were created. Additional bedrooms were added and the dining room extended in 1995, a plaque can be found on the wall below the terrace. The house next door, 6 Thornhill, was purchased and a new gravel track added in front of the hotel to provide access and a further 6 bedrooms were created. In 2008 these rooms were refurbished and we now have 4 bedrooms in the lodge/annex, with 2 having sitting rooms with lovely lake and mountain views.
