

## **Section8programs.com Develops Section 8 Consolidation Program Offering Grants to Low Income Families**

*Section8programs.com has developed the Section 8 Consolidation Program and eSales Program to assist low income families. The site, which is not government affiliated, awards small cash grants to qualified families in need.*

June 3, 2010 (FPRC) -- ST. LOUIS, MO -- Section8programs.com has recently developed two new programs to assist low income families. The Section 8 Consolidation Program and eSales Program are now offered as part of the Section 8 and Subsidized Housing Online Packet from Section8programs.com.

Section8programs.com's Online Packet provides detailed information about available low income programs across the country. By purchasing the Online Packet for the onetime fee of \$12.00, low income families get access to take part in both programs, and the cost of the packet can be easily earned back through the company's innovative eSales Program.

"Finding available Section 8 Housing can be quite difficult. Often low income families are living in cities where they are currently not accepting applications. Our Online Packet provides a central location that is updated each week advising those in need of places that Section 8 applications are being accepted throughout the country. Our goal is to provide families with the information needed to help them get back on their feet," said Hiram Lewis, CEO and President of Section8programs.com.

The Section 8 Consolidation Program is a grant program invented and funded by Section8programs.com. Through this unique program, qualified applicants receive a cash grant ranging from \$50 to \$400 dollars, depending on the number of applicants. New grant periods open and close weekly.

The application process for the Section 8 Consolidation Program is a unique way of determining those that will receive the cash grants from the organization. Individuals provide specific details as to their financial situation on the application form. This information is submitted to Section8programs.com. Then applicants share their personal story in the Guestbook, giving a reason why they believe their family needs the cash grant. Each applicant votes on a story other than the one they submitted. The family with the most votes wins assuming that the validity of the application is not in question. Section8programs.com completes a thorough review of each applicant to ensure information on the application is deemed accurate with their real-life situation.

Section8programs.com's eSales Program funds the Section 8 Consolidation Program and costs clients no additional fees after purchasing the Online Packet for \$12.00. Through the eSales Program, each individual makes \$6.00 for each referral that also purchases the Online Packet. There are no limitations as to the number of referrals that can be made. This packet, which is updated weekly, allows families to find additional sources of income through difficult times.

About Section8programs.com:

Section8programs.com was founded by President and CEO, Hiram Lewis. Lewis had interest in computers early on, and when the internet first went online to the public, his interest grew even more. Out of desire and passion for the internet and helping low income families find assistance, he developed Section8programs.com, the Section 8 Consolidation Program and the eSales Program. Section8programs.com is not affiliated with any government agency.
