

Higdon Wows International Gold And Silver MLM Company By Earning Top Sales Slot And A BMW

No. 1 producer leads multilevel marketing firm's 10,000+ sales force, and wins new \$95K car as incentive reward

June 8, 2010 (FPRC) -- Fort Myers, FL – Ray Higdon has been named the No. 1 producer and top income earner for Numis Network, an international gold and silver multilevel marketing company (<http://www.coinsmlm.com>), after only nine months with the firm. His feat also earned him the MLM's incentive reward – a brand new BMW 750li, valued at \$95,000.

Numis Network – based in Tampa, FL, and boasting more than 10,000 independent representatives worldwide – singled Higdon out last month. Numis Network is the only network marketing company that markets gold and silver assets in the form of numismatic (collectible) coins.

Higdon is a former real estate investor, a marketing consultant, a speaker in the motivation industry who has made presentations around the nation, and the founder of the Forever Wealth Club, a wealth education and networking group with members stretching from Southwest Florida to West Virginia and Pennsylvania. Higdon joined Numis Network not long after the company launched in May 2009.

Higdon said he was first attracted to the gold and silver MLM because, with the drop in the real estate market, his income decreased significantly.

“Numis Network has been a perfect opportunity to not just match the money I was making in real estate investing, but make a whole lot more,” Higdon said.

Higdon credits his sales team for his achievement. He uses his speaking and motivation-building skills to coach other sales reps to be successful.

“Scores of people have been negatively affected by this economy, but I’ve been able to help out many in my network by adding to – or even replacing – their income,” Higdon said.

He noted that concerns about the security of the economy and of banks have spurred an increase in collecting gold and silver assets through his company. And many of his sales reps have emerged from the fields of health care and teaching. Higdon believes this is because of their concerns about how new government policies are going to affect their futures.

Higdon said that some of the teachers he has brought into his network were facing anywhere from 20 to 40 percent pay decreases in the coming years. With Numis Network, they have the opportunity to run a side business with a quickly increasing trend of collecting gold and silver assets to help them create additional income.

About Numis Network

Numis Network’s goal is to be the largest source of precious metal coins. Collectible coins is a \$10 billion a year industry in the United States alone, and \$100 billion worldwide. Numis distributes top-graded (MS70) coins from the world’s leading government mints – not just from the United

States, but also from Canada to China ... from Australia to Austria, and more.
