

Patrick Beharelle, CEO of SeatonCorp, Announces Strong Continued Growth for 2010

Patrick Beharelle, SeatonCorp CEO, states that client engagements and signings have highlighted a successful year so far.

June 10, 2010 (FPRC) -- CHICAGO, IL -- SeatonCorp's CEO, Patrick Beharelle, recently announced the company has seen tremendous growth in 2010. In the first quarter, SeatonCorp revenue increased 26% year-over-year. Several new client signings and engagements have contributed to the success of the Chicago-based company, which specializes in assisting businesses with recruiting and staffing.

As CEO, Patrick Beharelle manages three divisions of SeatonCorp including: Staff Management, PeopleScout, and StudentScout.

"The growth this company has seen over the first half of this year is a testament to the staff that have contributed to our success. Our staff has put in the effort to find new clients and provide them with the best services available. It is through their efforts that we expect significant growth throughout the remainder of 2010," said Patrick Beharelle, CEO of SeatonCorp.

Staff Management, a division of SeatonCorp, is a leading managed staffing and recruiting solutions provider for various Fortune 500, Global 2000, and other fast-growing companies. The division has implemented well over 30 new client engagements over the past 12 months. This growth has been a contributing factor to SeatonCorp's healthy growth rate.

Another SeatonCorp division, PeopleScout, a Recruitment Process Outsourcing (RPO) specialist, has also seen significant growth, with more than a dozen successful new client implementations. This division has seen significant client expansion throughout Asia, South America, Australia and Europe. The recent international expansion represents over 10% of revenue for PeopleScout.

A third division of SeatonCorp, StudentScout, assists post-secondary educational institutions with optimization of their admissions processes from contacting leads to enrolling students. StudentScout is pioneering the industry using a proprietary business model that has been shown significant enrollment lift for its clients. As a result, the division has also seen significant year over year growth so far in 2010.
