

## **Wood Creations, Inc. Renews Its Vision and Goes “Green” with their New Eco-Friendly Bamboo Toy Box**

*Family-owned maker of wooden toy boxes, blanket chests, and bamboo chests introduces new Bamboo Toy Box that not only preserves order in the home but also protects the planet.*

June 15, 2010 (FPRC) -- BISMARCK, ND – What could be more revered by parents and children alike than the family toy box? Serving as the literal “mother lode” of the house, it’s the place where all the most-loved toys, trinkets and games get deposited when cleanup time rolls around. A catch-all for the kid-clutter that can overwhelm any home, a toy box is simply irreplaceable.

Wood Creations, Inc., the business brainchild of husband-wife team Bob and Julie Beck, operates with this knowledge in mind. This well-known maker of toy boxes and blanket chests has decided that the eco-mantra of renew, reuse, recycle could – and should -- be applied to their storage products. As such, Wood Creations, Inc. is proud to announce the debut of their Bamboo Toy Box.

This new Bamboo Chest still serves as a treasure trove for the youngsters, just as Wood Creations, Inc.’s other products have for many years. What makes it unique is the material. Bamboo is 16% harder than maple wood. So, c’mon kids, climb aboard! The durable ¾ inch bamboo panels and lid can take it! Sleek and stylish, the Bamboo Toy Chest can be engraved with a child’s name to make it the kind of family heirloom that will last for generations.

“The new Bamboo Toy Box was designed to blend in with an existing décor and to serve as a safe and functional storage piece. A renewable natural resource, bamboo is a high-strength material that is becoming recognized as a versatile building material. We were certain that it would be a perfect fit for our product line. Customers have embraced the new Bamboo Chest for its beauty and they appreciate that it represents one of the many simple ways we can help protect our environment,” says Bob Beck, President, Wood Creations Inc..

Made of 100% natural bamboo with a child-safe clearcoat, the Bamboo Toy Chest is 40” long by 21” wide by 20” tall. Customers can choose from five different letter styles if they want the chest engraved. All of Wood Creations, Inc.’s products are equipped with spring-loaded safety lid supports that have received approval from the Consumer Product Safety Commission.

About Wood Creations Inc.:

Wood Creations Inc. produces heirloom-quality toy boxes and chests that are 100% handmade, 100% wood and 100% guaranteed. Operated by Bob and Julie Beck, (who started out by making toy boxes for relatives and friends’ children) Wood Creations, Inc. makes a variety of storage pieces that feature special designs or personalized lettering.
