June 18, 2010 (FPRC) -- Highlands Ranch, CO--Well-known Highlands Ranch, CO Chiropractor, Dr. Aaron Casselman was recently honored for the third year in a row by being named 'Best Chiropractor in Highlands Ranch, Colorado' by the Highlands Ranch Herald. Dr. Casselman and his staff at Pinnacle Chiropractic strive to provide exceptional care to every patient.

Dr. Casselman and his staff take a different approach than most chiropractors who recommend an endless plan of adjustments to lessen pain. Instead, Dr. Casselman focuses on repairing spinal problems to prevent further injury. After the initial injury, many patients do not require long-term rehabilitation, but rather a few visits to treat their injuries.

Through his advanced training in spinal rehabilitation and the practice's state-of-the-art rehab facility, Dr. Casselman helps the patient heal while treating the source of the pain.

"I am extremely honored to be named 'Best Chiropractor In Highlands Ranch, CO' for the third consecutive year. Our patients are active and don't want sports to slow them down. We reduce their pain and keep them from repeating the injury with healthy spinal care," said Dr. Aaron Casselman, Chiropractor/Owner of Pinnacle Chiropractic.

Insurance details can be worked out by Pinnacle Chiropractic's friendly staff. The office will work with patients and the insurance company to devise the best treatment options and schedule a telephone consultation. Patients can find guidelines for a healthy lifestyle and Pinnacle Chiropractic news on Facebook and YouTube.

For only \$37, new patients can receive a initial consultation, full spinal examination, report of findings, health workshop and a 50-minute massage. Patients can call (303) 683-5060 to make an appointment.
