June 18, 2010 (FPRC) -- MARIETTA, GA -- My Tarp recently published a How-To Guide for truck tarps, canvas covers and more. The guide answers many frequently asked questions about tarps and covers to help their clients and others to understand the processes behind creating a tarp.

The company also discusses the pros and cons of various types of materials used to create tarps including polyethylene, canvas, canvas with a premium finish and vinyl tarps.

"The number one interest of our company is the customer. We want to provide the highest quality tarps and covers for our clients. With that goal in mind we published the how-to guide to answer frequently asked questions. Additionally, we want to help our customers understand what materials are available and what needs to be done to ensure that their tarps and covers last," said Steve Gao, Customer Service Manager of My Tarp.

In addition to truck tarps, the company offers tarps, covers, drop cloths, screens, shades and more. The company offers a wide selection of profession specific tarps as well.
