

Car Care Megastore and CarCareMegastore.com Announce the Distribution of Lucky Earth's Eco-Responsible “Green” Car Care Products

Car Care Megastore is now a Distributor of the Lucky Earth brand of car care products. Lucky Earth products are superior to any car care products on the market, and are Eco-Friendly. Protect your car, protect your family, protect your environment!

June 30, 2010 (FPRC) -- – Car Care Megastore and CarCareMegastore.com announce the distribution and partnership with Lucky Earth. Lucky Earth car care products contain no Volatile Organic Compounds (VOCs), no petrochemicals, and are environmentally friendly. To order Lucky Earth products or to learn more about Lucky Earth and Car Care Megastore, visit <http://CarCareMegastore.com>

There are many car care manufacturers on the market that have some claim to being environmentally friendly. These companies include; No Wet, Eco Touch, Eco Car Care, H2O Conserv, Dry Wash, and Freedom Waterless Car Wash to name a few. Some product lines are truly environmentally friendly, some are not regardless of their claims or may have 1 or 2 products that are friendly and not their entire product line. But Car Care Megastore has found a company that is environmentally friendly and works extremely well; That product line is Lucky Earth.

Lucky Earth is the world's premier environmentally friendly Car Care product line. Lucky Earth is the world's premier Waterless Car Wash. Lucky Earth is the world's premier Car Care product line overall.

Lucky Earth does not use gallons of water on washing a car. Lucky Earth does not use greasy-solvent based tire shine to produce a deep black finish on tires. Lucky Earth does not use harsh chemicals to clean carpet and upholstery. Lucky Earth is really that different than other car care products and that much better.

Lucky Earth has been featured in numerous big-name magazines and newspapers around the world including Forbes, Entrepreneur, Women's Health, Los Angeles Times, New York Times, Wall Street Journal, Vitamin Retailer, Natural Home, and even the Robb Report.

At Lucky Earth, our goal is to provide the highest quality car care products that are safe for you and the environment. Lucky Earth "waterless" products are so simple to use, and at only a couple bucks per wash, Lucky Earth helps you save money, save time, and save water! - Lisa Peri, Founder Lucky Earth

Lucky Earth Waterless Car Wash makes it possible to quickly, easily, and inexpensively clean and detail the whole car, inside and out, and can be used on a wet or dry surface. It dissolves and encapsulates dirt and whisks it away with a microfiber towel. Since no water is needed to wash the car, no pollutants will run off into drainage systems, streams, rivers, and lakes. Imagine the good that will be done for ourselves, our families, and the world! Image a beautifully cleaned and waxed car, boat, or motorcycle after using Lucky Earth. This is the end result with very little effort and very little time.

Lucky Earth also donates 1% of net profits to a local charity. With every Lucky Earth product sold, a donation is made to Heal the Bay, an advocacy group that works to find solutions to the problems threatening Santa Monica Bay and all of Southern California's coastal waters.

To purchase Lucky Earth products and hundreds of other car care products and accessories, visit CarCareMegastore.com. Car Care Megastore is a mega store selling everything from soaps, waxes, buffers, and polishers to Tapout Floor mats, Harley Davidson accessories, and Ed Hardy car products. In addition to Lucky Earth, CarCareMegastore.com also carries traditional brand products such as Armor All and Meguiars.
