

## **MIE Quote IT CadSolid Software Released From MIE Solutions**

*MIE Quote IT CadSolid Software now can take a standard EBOM exported from any cad or modeling package directly into the quoting and estimating module.*

July 1, 2010 (FPRC) -- MIE Solutions has released MIE Quote IT CadSolid Software to help business manage quotes, estimates and sales activities. MIE Quote IT CadSolid Software now can take a standard EBOM exported from any cad or modeling package directly into the quoting and estimating module. If you have modifications in your EBOM, re import and MIE Quote IT CadSolid Software takes care of all the associations automatically.

MIE Quote IT CadSolid Software is a revolutionary quote and estimating sales tool. MIE Quote IT CadSolid Software is intended for businesses whose employee's want to share sales quotes, sales activity and manage files and other business related tasks. MIE Quote IT CadSolid Software can be used in organizations with 1000's of users who want to easily manage their daily business activities.

An engineering bill of materials (EBOM) is a type of bill of materials (BOM) reflecting the product as designed by engineering. Many engineering models provide detailed EBOM specifications including part number, description and the required quantity of each component. MIE Quote IT CadSolid Software can import an EBOM exported from any cad or modeling package directly into the quoting and estimating module.

Many businesses still do not use Estimating tools which are available to help in improving the quoting and sales cycle. So, MIE Solutions has released a free trial version of MIE Quote IT CadSolid and MIE Trak ERP Software which can be downloaded and tested.

MIE Quote IT CadSolid Software is a quoting and estimating package that helps companies prepare estimates consistently regardless of who is estimating with the use of tables and formulas. MIE Quote IT CadSolid Software is a multi-user package which can handle 100's of concurrent users. MIE Quote IT CadSolid Software gives the user the ability to create formulas for each operation so that as long as the estimators can read a drawing and have basic knowledge of manufacturing the estimators should be within pennies of each other on the per part price. MIE Quote IT CadSolid Software gives the ability to have multiple quotes per item to really evaluate different manufacturing methods and their costs in order to come up with the best price for the customer. In MIE Quote IT CadSolid Software just enter the labor operations and bill of material and a true cost and price are readily available quick and easy.

MIE Solutions is the leading provider of production control software for the entire manufacturing sector. Incorporating MRP, ERP, Scheduling Shop floor data capture (SFDC) with bar coding and costing capabilities.
