

MAM-A Inc Expands Made in USA Recordable Product Line.

MAM-A Inc. is pleased to announce the expansion of our Made in USA Recordable Optical disc product line. We now offer the full range of our Silver CD-R & DVD-R/+R products and our 24kt Gold Archival CD-R and DVD-R/+R products with a Made in USA option.

July 9, 2010 (FPRC) -- MAM-A Inc. is pleased to announce the expansion of our Made in USA Recordable Optical disc product line. We now offer the full range of our Silver CD-R & DVD-R/+R products and our 24kt Gold Archival CD-R and DVD-R/+R products with a Made in USA option. Completion of our 2010 capacity expansion at our Colorado Springs manufacturing facility now makes this possible. MAM-A Inc, is the last recordable optical disc manufacturer with CD-R & DVD-R lines in the United States.

Although all of our discs are made to the same high standards, products made in Colorado give an option to Americans willing to pay a little more to purchase Made in USA goods, and for North American trade partners looking to pay lower tariffs.

Ram Nomula , Chief Executive Officer for MAM-A. commented "We are proud to be more than just a sales office and still make discs here in America".
