

Dc07 Dyson Review Wesbite Launched

Bren Mueller, a student studying Marketing at university announced today, has launched a new review website that will feature information on the DC07 Dyson vacuum cleaner. The new website can be found at www.dc07dyson.com.

July 8, 2010 (FPRC) -- Bren Mueller, a student studying Marketing at university announced today, he has launched a new review website that will feature information on the DC07 Dyson vacuum cleaner. The new website can be found at www.dc07dyson.com.

'The Dyson brand is known for innovations and quality; however their products can be seen as being expensive. The goal of this website is to give customers interested in the DC07 Dyson vacuum cleaner a chance to read reviews from existing customers before they go and buy a DC07 Dyson'.

Bren said he came up with this idea not only to help consumers but also as a way for him to apply his marketing skills learned from his degree 'I see it as a win-win situation for everyone'.

Bren also wanted to point out that this website is in no way a part of Dyson. 'We have setup this review website that is an affiliate site. It was added that this is strictly a review site setup to help customers make the right buying decision. Dyson has many vacuum cleaners in their product range so it's important when spending your money to buy the right vacuum cleaner'

Bren invites owners of the DC07 Dyson vacuum cleaner to submit their reviews to this website. 'We would love to know whether your opinion of this Dyson product is good or bad, we will publish it all'.

He planned to feature information about Dyson spare parts and Dyson accessories in the near future as well as ongoing reviews of the DC07 Dyson vacuum cleaner.

For more details on the DC07 Dyson review site, visit www.dc07dyson.com.
