July 19, 2010 (FPRC) -- WOODSIDE, NY -- CustomSlipcoversNow.com has announced they are now offering a one-week turnaround on orders for custom slipcovers. Once the order is received, the staff at CustomSlipcoversNow.com will create the slipcover to fit the specified furniture piece with the fabric selected. The cover is then shipped within just one week of the order.

CustomSlipcoversNow.com creates slipcovers to fit any type of furniture from sofas and chairs to patio furniture and boat cushions. Their experienced staff has developed fitted slipcovers to help customers rejuvenate the look and feel of their furniture. People typically choose slipcovers when designing a new look for a room, to blend mismatching furniture or to cover old and stained furniture.

"99% of the time an off-the-shelf slipcover will not fit properly -- causing unsightly lumps and gatherings. Our slipcovers are designed to your exact specifications, which means the fit is perfect every time. With our new one-week turnaround, there is no longer a reason to bother with improperly fitting slipcovers," said Lillian Nazginov, President, of CustomSlipcoversNow.com.

In order to develop a fitted slipcover for a custom furniture piece, customers need to provide accurate dimensions so that CustomSlipcoversNow.com can ensure the best fit. To assist customers, the company provides a how-to guide on their website detailing ways to get accurate measurements along with information that will be essential to the development of the cover. Some important factors include the cushion style and back style.

CustomSlipcoversNow.com also offers hundreds of different fabric options to give just the right look and feel to a home, RV or boat. Customers can search their selection of fabric based upon pattern, fabric type and color. Choose from cotton, outdoor, stretch, suede, woven and many more fabrics. Those interested in learning more about obtaining custom sofa or chair slipcovers can visit the website or contact their service department at 718-478-1049.
